Full Stack Developer

Dedicated and proficient Full Stack Software Developer with expertise in crafting visually appealing and user-centric web applications in fast-paced startup environments. Proficient in leveraging the latest technologies and frameworks to deliver robust solutions. Adept at frontend development with Angular 17 and backend development with ASP.Net Core, C#, and Entity Framework, along with expertise in database management using MS SQL.

WORK EXPERIENCE

Onit

Solution Engineer | Aug 2024 - current

- Leveraged Angular 17 to implement state management techniques with RXJS and integrate Angular Material library, resulting in enhanced UI design and seamless navigation.
- Supported cross-functional development efforts, fostering collaboration among teams to ensure project success and streamline workflows.

Networcx

Software developer | Nov 2022 - Aug 2024

- Crafted visually stunning user interfaces to elevate the overall aesthetic appeal and usability of web applications.
- Focused on delivering enduring user experiences, ensuring seamless navigation and interaction for enhanced engagement.
- Utilized Angular Material, Bootstrap, and Syncfusion in development tasks to enrich UI design and functionality.
- Expert in API development, facilitating seamless communication between various components of the application
- Workedd with Entity Framework alongside MS SQL to efficiently manage data and enhance database functionality.
- Collaborated with cross-functional teams to gather requirements, provide technical expertise, and drive project success.
- Played a key role in Agile project management, actively engaging with clients to gather feedback, prioritize tasks, and ensure timely delivery of solutions.
- Conducted regular check-ins and follow-ups with clients to address any issues or concerns, maintaining high levels of customer satisfaction and loyalty.

iAastha Technologies

Junior Developer | Dec 2021 - Oct 2022

- Building data extraction pipelines in Python for efficient processing of diverse data sources, ensuring high-quality outputs.
- Built well-documented and efficient APIs using Node.js for seamless communication and integration between software systems

SKILLS

- Angular
- TypeScript
- HTML5
- .Net Core
- C#
- Entity Framework
- REST API
- MS SQL
- Microsoft Azure
- Agile
 Methodologies
- Cross-Functional Collaboration
- Git

EDUCATION

BACHELOR OF ENGINEERING (B.E)

COMPUTER ENGINEERING SPPU University, Pune 2018 - 2022
