Senior Solution Engineer

Solutions Engineer with ~5 years of experience working closely with enterprise customers to understand requirements, build and deploy scalable solutions in production environments. Proven track record of owning end-to-end implementations, driving measurable business impact and developing automation tools that reduce workflow time by up to 93%. Strong in hands-on development, system integration and collaborating across engineering and business teams.

WORK EXPERIENCE

Onit

Solution Engineer-II | Dec 2025 - current

- Serve as a technical solutions advisor for large enterprise clients, converting complex business needs into scalable, high-impact solution designs.
- Own end-to-end solution delivery (discovery → implementation → optimization), improving client adoption and retention.
- Drive cross-functional alignment across product, engineering and business teams to resolve complex technical issues and meet delivery timelines.
- Operate in high-volume, multi-client environments, balancing competing priorities while maintaining service quality.
- Led technical engagements with enterprise customers including Lenovo, World Bank, AMD, NVIDIA, and FedEx, owning solution design, implementation, enterprise integrations, production troubleshooting and workflow optimization across a SaaS platform.
- Developed an internal Chrome extension to streamline support workflows by automating OTT (client environment impersonation) authentication and surfacing critical data.
 - Reduced login time by ~93% (~5 mins per batch).
 - Improved support turnaround time and team productivity by saving 8+ hrs per month per user.

Solution Engineer | Aug 2024 - Dec 2025

- Delivered customized client solutions by configuring and extending product capabilities for diverse business use cases.
- Collaborated in a remote, cross-functional setup, ensuring clear documentation and efficient delivery.
- Applied consultative problem-solving to strengthen client relationships and drive repeat business.

Networkx

Software Developer | Customer Success Manager | Nov 2022 - Aug 2024

- Led end-to-end client onboarding and campaign execution by gathering, validating and organizing client assets, ensuring smooth and timely deployment of solutions.
- Collaborated closely with the CEO and other stakeholders to identify potential business opportunities and align customer success initiatives with overall company goals.
- Developed and implemented comprehensive training programs tailored to individual client needs, facilitating a deep understanding of the system functionalities.
- Supported 5+ client accounts concurrently while maintaining SLA compliance and high customer satisfaction scores

iAastha Technologies

Junior Developer | Dec 2021 - Oct 2022

- Built data processing pipelines in Python to handle and transform large datasets efficiently.
- Developed API services using Node.js, supporting system integrations and data exchange.

SKILLS

Solutioning & Client Work

- Customer Relationship Management
- Solution Design
- Requirement Discovery
- Stakeholder Management
- Pre-sales / Post-sales Support

Technical & Frameworks

- .NET, Angular 16+
- REST APIs, System Integration
- MSSQL, GraphQL, Entity Framework
- Word, Outlook Add-in's

Languages

- JavaScript
- TypeScript
- C#
- HTML, CSS
- Python

CI/CD & DevOps

- Git/GitHub, GitLab
- AWS
- Azure DevOps
- Agile/Scrum

EDUCATION

BACHELOR OF ENGINEERING (B.E)

COMPUTER ENGINEERING

SPPU University, Pune

2018 - 2022

OPEN SOURCE & RECOGNITION

ASP.NET Zero — Open Source Contributor

- Contributed documentation improvements to ASP.NET Zero built with ASP.NET Core, Angular, and Entity Framework Core
- Recognized and featured by the project maintainers for open-source contributions. [Check Here.](#)

AI Advocacy & Engineering Productivity

- Featured in the organization's Chief AI Office LinkedIn initiative for perspectives on effective AI usage in software engineering.
- Shared practical approaches for leveraging AI tools to improve productivity, problem solving, and delivery efficiency. [Check Here.](#)
